CAREER OBJECTIVE

Penultimate-year B.Tech (IT) student with a strong academic foundation in data structures, software development, and cloud computing (AWS Cloud Foundations). Eager to apply my analytical problem-solving skills (650+ CodeChef problems solved), attention to detail, and hands-on project experience to support quality assurance, system operations, and infrastructure teams while growing into automation testing and cloud administration.

TECHNICAL SKILLS

Programming: Python, Java, C, SQL, HTML, CSS, JavaScript

Cloud & Platforms: AWS (Cloud Foundations), Linux (Ubuntu), Windows

Software Engineering: Data Structures & Algorithms, REST APIs, SSE Streaming, Git, Debugging & Documentation

Frameworks/Tools: React, CSS, Matplotlib, Jupyter Notebook, VS Code

AI/ML: Multi-Agent LLM Systems, AutoGen GroupChat, Prompt Engineering, Random Forest, XGBoost

PROJECTS

Green Village – Smart Tree Protection & Plantation App | *IoT | Embedded Systems | Automation | Developer*

- Designed an automated smart agriculture system to monitor soil moisture, temperature, and humidity in real time.
- Implemented an intelligent irrigation system to optimize water usage and improve plant growth.
- Built protection mechanisms using sensor-based alerts to detect and prevent tree/crop damage.
- Developed an integrated application for smart plantation monitoring and resource management.

Hostel Verse – Smart Digital Hostel Ecosystem | *Java | Web Development | DBMS | Developer*

- Built a centralized platform for hostel management including room allocation, attendance, and complaint tracking.
- Enabled real-time communication between students and administration.
- Improved operational efficiency by digitizing manual hostel processes.

EDUCATION

B.Tech, Information Technology — Vasireddy Venkatadri Institute Of Technology (JNTUK), A.P

Pursuing (2023–2027) | CGPA: 8.32

Intermediate — Sri Chaitanya Junior College, A.P (2023) — 94%

SSC — Sri Chaitanya Techno School, A.P (2021) — 99.5%

CERTIFICATIONS

- Programming in Java — NPTEL | 2025
- Joy of Computing using Python — NPTEL | 2024
- Generative AI — Google Cloud | 2024
- Springboard Program (Java) — Infosys Springboard | 2025
- Java Programming — CodeTantra | 2025

ACHIEVEMENTS

- Solved 650+ problems on CodeChef, demonstrating strong problem-solving and algorithmic skills.
- Actively participated in hackathons, gaining experience in real-world problem solving and team collaboration.
- Secured Silver Medal for designing high-quality templates on Canva.
